JUDO FOOD – The quick and effective solution for your food labelling needs

To ensure that food products sold to consumers are safe for consumption, it is imperative for food manufacturers and providers to comply with food safety regulations and standards such as HACCP, BRC, ISO 22000, FSSC 22000, International Featured Standard (IFS) Food, Safe Quality Food (SQF), etc which are certifications that are internationally recognized.

Food labelling, for e.g. labelling food items with 'prepared' and 'use-by' dates, thus becomes crucial to provide consumers with the necessary information to assess if food products are safe to be consumed.

JUDO FOOD hand labelling solution is ideal for such purposes. It is not only simple to use and value for money, its enhanced features including 13 Texts Food Safety Rotary Cliché on the top and a Date/Time/Price indication on the bottom (as pictured on the right) makes it highly versatile for use.

TH2 Printer – Food labelling made easy!

Other than JUDO FOOD, food manufacturers and providers can also leverage SATO's TH2 printer for their food safety labelling needs.

It is a 2" thermal standalone printer with a large LCD screen for easy reading and also real-time calendar function for expiry date and time calculation can be done at a touch of a button. Its casing also has anti-microbial properties, making this printer highly suitable for use in food preparation environments where hygiene control is crucial.
